

WORKSHOP:

CULTURAL (Part 2)

~ *Content Overview & Timetable*

Maria Montessori designed the curriculum of the cultural subjects as an interdisciplinary study of the life of man on earth throughout time and in all geographic regions. It includes the study of geography, history, music, art, botany, zoology, language and mathematics. It encompasses all cultural subjects as part of a meaningful whole. Maria Montessori's primary goal was for education to help the child become a fully developed individual adapted to his time and place and culture; to be a citizen of tomorrow; a participant in a harmoniously functioning society. The cultural subjects give the child an understanding of unity.

CONTENT OVERVIEW & TIME TABLE

<u>09:00am</u> -	Registration
<u>09:30am</u> -	Botany Leaf & Flower Cabinet Classification Cards
<u>01.00pm</u> -	LUNCH (bring a packed lunch)
<u>01.30pm</u> -	Zoology Lifecycles Classification of Animal Kingdom Science experiments: Water, Air, Soil, Magnetism Music Art Craft
<u>03.30pm</u> -	Home Time

NOTE: For details on the workshop date, venue(s) & fees, please consult the 'Workshop Schedule & General Information'.

*"At six years of age all items of culture are received enthusiastically,
and later these seeds will expand and grow.
If asked how many seeds may be sown, my answer is: "As many as possible."
Looking around us at the cultural development of our epoch of evolution,
we see no limit to what must be offered to the child."
~ Maria Montessori*
